

THE MILITARY EXPERIENCE

Strengthen the bonds of your team the way U.S. military special operations do.

Challenge your team on their mindset, effectiveness, creativity, teamwork by getting them outside their comfort zones.

This program kicks off with an unparalleled simulated mission to challenge your team on their mindset, effectiveness, creativity, teamwork, and getting them outside their comfort zones. Through obstacle course challenges followed by a debriefing, we'll ignite high performance through practice that will have an incredible impact on your organizational culture and camaraderie.

We are proud to partner with Victory Strategies, the premier leadership assessment and development firm comprised of elite practitioners, such as Elite Military Members, Fortune 500 Executives, and High Impact Entrepreneurs. We improve organizational culture, alignment, and efficiency through leadership development training and team engagement.

Beyond an experience

Personal Responsibility

Team members learn to master the basics, take pride in their work and are committed to a growth mindset for the betterment of the organization.

Rewired Culture

Everything in the organization is built around the team concept to include workspace design, incentives, and measures of success.

Shared Purpose

As members begin to trust each other, the organization's values and mission becomes clearer. Team members no longer rally around the team, they are focused on the team mission.

Common Challenge

Adversity forges teams. Regardless of the nature of the trial, the end result is that members are brought closer together when faced with common hardship.

They provided a wealth of insight, experiences, and tools that he has developed from the battlefield to the boardroom."
